=

Total running costs savings over 3 years**

Model shown is the Altea XL 1.6 TDI CR 105PS Ecomotive SE. Priced at £18,725. *The £2,000 saving is off the recommended retail price of the Altea XL 1.6 TDI CR 105PS Ecomotive and is available between the 1st July and 30th September 2010. Retail sales only. Subject to availability. Offer may be withdrawn at anytime. **The total running cost savings over 3 years are derived from the Altea XL Ecomotive having a VED Band weighting of band C (up to 120g/km CO₂) therefore the owner pays no road tax for the first year and only £30 for the second and third years, a saving of £315 based on the average CO₂ emissions for the Altea XL range of 143.6g/km meaning the owner must pay road tax based on VED Band F of £125 per year over 3 years, the saving of £315 over 3 years is based on the difference between VED band C and VED band F. A fuel saving of £304.64 per year is arrived at based on an average of 15,000 miles per annum using the average combined fuel economy for the range (50.82mpg) compared to the combined fuel economy of the Altea XL Ecomotive (62.8mpg) and a fuel cost of £1.19 per litre. The total fuel saving is then taken over 3 years which is the average period a vehicle is retained giving a saving of £913.92. Total running cost savings over 3 years are therefore £1,228.92. Fuel prices and VED band rate correct at time of going to press.

Official fuel consumption for the SEAT Altea XL 1.6 TDI CR 105PS Ecomotive SE in mpg (litres per 100km); urban 54.3 (5.2); extra-urban 68.9 (4.1); combined 62.8 (4.5). CO₂ emissions 119g/km.
